

FCC,

I am a resident in the state for which this petition has been filed. I am strongly against this petition and request that it be denied. My family has enjoyed freedom from constant interruptions from companies attempting to solicit our business since Indiana established our state do-not-call list. Even though I, as well as most residents, have an ongoing business relationship with my bank I do not want them calling for any reason other than reasons I previously agree on with my particular bank. None of these reasons have ever or will ever include solicitation for additional services from the bank or any of their affiliates. Once again, please deny this petition.

Thank you.
